An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Amend the first line of claim 3 to read as follows:

-- Claim 3     A plant metabolism regulator comprising water and a --

At the end of the last line of claim 3 delete: “, and water”

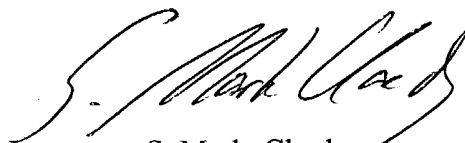

Applicants' intent was to require the presence of water in the composition (response, pages 5-6); however, the placement of “and water” at the end of the Markush group of claim 3 makes it read as though water were one of the regulator compounds. The above amendment corrects this obvious oversight by moving “water” ahead of (and clearly outside of) the Markush group.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to S. Mark Clardy whose telephone number is 571-272-0611. The examiner can normally be reached on 7:30-5:00.
